. Ethan Fleischer: As Director of the Community Ethics Center, I hope to help the students at RHS become civic, social, and global citizens. One way to accomplish this goal is to give them a chance to experience the world beyond high school. By traveling to a foreign country for a service learning experience, students get a chance to meet new people, learn a new language, gain a sense of the world, and develop cross-cultural and global skills. Our new experiential learning/service learning/service-learning experience, website, and program are all designed to help connect our students to the world and give them real-life opportunities to apply their high school courses to the real world. Languages Beyond High School - Conversational and Interpersonal Language Skills Description: Ethan Fleischer: Language skills are a critical part of successful high school and beyond, but they often are overlooked. Without good language skills, students are left with limited opportunities to travel, take part in cultural programs, work in adult learning centers, and participate in a host of other life experiences. Through the language courses at RHS, we are giving students real-life, hands-on opportunities to build conversational and interpersonal skills that will help them succeed in high school and in life. I am thrilled to be able to share my love of language and to help our students build meaningful high school experiences. Beyond High School - Preparation for College Description: Lora Arem: The opportunities available to our graduates are far greater than most of us ever realize. Through the expansion of our community and personal development initiatives, RHS students are preparing themselves for post-high school life. By taking advantage of all the opportunities RHS has to offer, students will be well prepared for the college environment and for a successful and fulfilling future. These programs and services include: RHS ACCESS to College, a comprehensive program that allows RHS seniors the opportunity to take courses at any four-year college or university of their choice. Accommodations are made for students who may need to change their academic schedule to accommodate summer or winter break. Travel Scholarships are available to RHS students through the National Youth Leadership Council, and scholarships are available to RHS students through the National Speakers Association. We also offer a summer orientation for incoming freshmen to help them adjust to life at RHS. Beyond High School - College Essay Description: Lora Arem: Writing and speaking skills are critical to success in the college environment. Through a variety of 80eaf3aba8
